

# SAFETY DATA SHEET

---

## SECTION 1) CHEMICAL PRODUCT AND MANUFACTURER'S IDENTIFICATION

---

**Product ID:** 0985-IR  
**Product Name:** INK REMOVER MARKER  
**Revision Date:** Dec 11, 2017 **Date Printed:** Feb 27, 2018  
**Version:** 1.0 **Supersedes Date:** N.A.  
**Manufacturer's Name:** TOUCH-UP SOLUTIONS  
**Address:** 4372 Providence Mill Rd Maiden, NC, US, 28650  
**Emergency Phone:** 1-800-535-5053 | International : 1-352-323-3500  
**Information Phone Number:** 1-828-428-9094  
**Fax:** 1-828-428-9970  
**Product/Recommended Uses:** Touch up and repair

---

## SECTION 2) HAZARDS IDENTIFICATION

---

### Classification

Eye Irritation - Category 2A  
Flammable Liquids - Category 1  
Skin Irritation - Category 2

### Pictograms

### Signal Word

Danger

### Hazardous Statements - Physical

Extremely flammable liquid and vapor

### Hazardous Statements - Health

Causes serious eye irritation  
Causes skin irritation

### Precautionary Statements - General

If medical advice is needed, have product container or label at hand.  
Keep out of reach of children.  
Read label before use.

### Precautionary Statements - Prevention

Wash with water and soap thoroughly after handling.  
Wear protective gloves/protective clothing/eye protection/face protection.  
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.  
Keep container tightly closed.  
Ground/bond container and receiving equipment.  
Use explosion-proof electrical/ventilating/lighting equipment.  
Use only non-sparking tools.

Take action to prevent static discharges.

### **Precautionary Statements - Response**

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice/attention.

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].

In case of fire: Use DRY chemical, alcohol-resistant foam, carbon-dioxide, water spray/fog to extinguish.

IF ON SKIN: Wash with plenty of water.

Specific treatment (see First-aid on this label).

If skin irritation occurs: Get medical advice/attention.

Take off contaminated clothing. And wash it before reuse.

### **Precautionary Statements - Storage**

Store in a well-ventilated place. Keep cool.

### **Precautionary Statements - Disposal**

Dispose of contents/container to disposal recycling center.

Under RCRA it is the responsibility of the user of the product to determine at the time of disposal whether the product meets RCRA criteria for hazardous waste. Waste management should be in full compliance with federal, state and local laws.

---

## **SECTION 3) COMPOSITION, INFORMATION ON INGREDIENTS**

---

None of the chemicals in this product are hazardous according to the GHS.

---

## **SECTION 4) FIRST-AID MEASURES**

---

### **Eye Contact**

Rinse eyes cautiously with lukewarm, gently flowing water for several minutes, while holding the eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing for a duration of 15-20 minutes. Take care not to rinse contaminated water into the unaffected eye or onto the face. If eye irritation persists: Get medical advice/attention.

### **Skin Contact**

Take off contaminated clothing, shoes and leather goods (e.g. watchbands, belts). Rinse skin with lukewarm, gently flowing water for a duration of 15-20 minutes. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before re-use.

### **Ingestion**

Rinse mouth. If unwell or concerned: Get medical attention/advice. Do NOT induce vomiting unless advised by Poison center or doctor.

### **Inhalation**

Remove source of exposure or move person to fresh air and keep comfortable for breathing. Call a POISON CENTER/doctor, if you feel unwell.

---

## **SECTION 5) FIRE-FIGHTING MEASURES**

---

### **Unsuitable Extinguishing Media**

Do not use water jet.

### **Special hazards in case of fire**

Hazardous Combustion Products: Oxides of carbon.

Flammable components of this material may be lighter than water and burn while floating on the surface.

Vapors are heavier than air and may travel to a source of ignition and flash back.

### **Special Protective Actions**

Wear protective pressure self-contained breathing apparatus (SCBA) and full turnout gear.

### **Suitable Extinguishing Media**

Dry chemical, foam, carbon dioxide is recommended. Water spray is recommended to cool or protect exposed materials or structures. Carbon dioxide can displace oxygen. Use caution when applying carbon dioxide in confined spaces. Simultaneous use of foam and water

on the same surface is to be avoided as water destroys the foam.

### **Fire-Fighting Procedures**

Isolate immediate hazard area and keep unauthorized personnel out. Stop spill/release if it can be done safely. Move undamaged containers from immediate hazard area if it can be done safely. Water spray may be useful in minimizing or dispersing vapors and to protect personnel. Water may be ineffective but can be used to cool containers exposed to heat or flame. Caution should be exercised when using water or foam as frothing may occur, especially if sprayed into containers of hot, burning liquid.

Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

---

## **SECTION 6) ACCIDENTAL RELEASE MEASURES**

---

### **Emergency Procedure**

ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).

Isolate hazard area and keep unnecessary people away. Remove all possible sources of ignition in the surrounding area. Notify authorities if any exposure to the general public or the environment occurs or is likely to occur.

Do not touch or walk through spilled material.

If spilled material is cleaned up using a regulated solvent, the resulting waste mixture may be regulated.

### **Personal Precautions**

Avoid breathing vapor. Avoid contact with skin, eye or clothing. Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing.

### **Environmental Precautions**

Stop spill/release if it can be done safely. Prevent spilled material from entering sewers, storm drains, other unauthorized drainage systems and natural waterways by using sand, earth, or other appropriate barriers.

### **Methods and Materials for Containment and Cleaning Up**

Cover spills with suitable inert absorbent like granulated clay and place in sealed chemical waste containers.

### **Recommended Equipment**

Positive pressure, full-face piece self-contained breathing apparatus (SCBA), or positive pressure supplied air respirator with escape SCBA (NIOSH approved).

---

## **SECTION 7) HANDLING AND STORAGE**

---

### **General**

Wash hands after use.

Do not get in eyes, on skin or on clothing.

Do not breathe vapors or mists.

Use good personal hygiene practices.

Eating, drinking and smoking in work areas is prohibited.

Remove contaminated clothing and protective equipment before entering eating areas.

Eyewash stations and showers should be available in areas where this material is used and stored.

### **Ventilation Requirements**

Use only with adequate ventilation to control air contaminants to their exposure limits. The use of local ventilation is recommended to control emissions near the source.

### **Storage Room Requirements**

Keep container(s) tightly closed and properly labeled. Store in cool, dry, well-ventilated areas away from heat, direct sunlight, strong oxidizers and any incompatibilities. Store in approved containers and protect against physical damage. Keep containers securely sealed when not in use. Indoor storage should meet OSHA standards and appropriate fire codes. Containers that have been opened must be carefully resealed to prevent leakage. Empty containers retain residue and may be dangerous. Use non-sparking ventilation systems, approved explosion-proof equipment and intrinsically safe electrical systems in areas where this product is used and stored.

Do not cut, drill, grind, weld or perform similar operations on or near containers. Do not expose containers to heat, sparks, flame or other sources of ignition.

Ground and bond containers when transferring materials. Use procedures that prevent static electrical sparks. Static electricity may accumulate and create a fire hazard.

Use non-sparking ventilation systems, approved explosion-proof equipment and intrinsically safe electrical systems in areas where this product is used and stored.

## SECTION 8) EXPOSURE CONTROLS, PERSONAL PROTECTION

### Eye Protection

Wear eye protection with side shields or goggles. Wear indirect-vent, impact and splash resistant goggles when working with liquids. If additional protection is needed for entire face, use in combination with a face shield.

### Skin Protection

Use of gloves approved to relevant standards made from the following materials may provide suitable chemical protection: PVC, neoprene or nitrile rubber gloves. Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, glove thickness, dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. Use of an apron and over-boots of chemically impervious materials such as neoprene or nitrile rubber is recommended to avoid skin sensitization. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Launder soiled clothes or properly disposed of contaminated material, which cannot be decontaminated.

### Respiratory Protection

If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker, a respiratory protection program that meets or is equivalent to OSHA 29 CFR 1910.134 and ANSI Z88.2 should be followed. Check with respiratory protective equipment suppliers.

### Appropriate Engineering Controls

Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value.

---

## SECTION 10) STABILITY AND REACTIVITY

---

### Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

### Conditions to avoid

Avoid flame, spark, heat, contact with air/water, visible light and contact with incompatible materials.

### Stability

Stable in normal conditions

### Incompatible Materials

Strong oxidizing agents, acids, alkalies, amines and water.

### Hazardous reactions/polymerization

Will not occur.

---

## SECTION 11) TOXICOLOGICAL INFORMATION

---

### Skin Corrosion/Irritation

Causes skin irritation

### Serious Eye Damage/Irritation

Causes serious eye irritation

### Carcinogenicity

No Data Available

### Germ Cell Mutagenicity

No Data Available

### Reproductive Toxicity

No Data Available

### Respiratory/Skin Sensitization

No Data Available

### Specific Target Organ Toxicity - Single Exposure

No Data Available

**Specific Target Organ Toxicity - Repeated Exposure**

No Data Available

**Aspiration Hazard**

No Data Available

**Acute Toxicity**

No Data Available

---

**SECTION 12) ECOLOGICAL INFORMATION**

---

**Toxicity**

No Data Available

**Persistence and Degradability**

Product is not expected to persist in the environment.

---

**SECTION 13) DISPOSAL CONSIDERATIONS**

---

**Waste Disposal**

Under RCRA it is the responsibility of the user of the product to determine at the time of disposal whether the product meets RCRA criteria for hazardous waste. Waste management should be in full compliance with federal, state and local laws.

Empty Containers retain product residue which may exhibit hazards of material, therefore do not pressurize, cut, glaze, weld or use for any other purposes.

COMPONENTS SUBJECT TO US EPA LAND DISPOSAL RESTRICTIONS: Contains Chromium (CAS : 7440-47-3).

---

**SECTION 14) TRANSPORT INFORMATION**

---

**U.S. DOT Information**

Hazard Class: 3

See 49CFR 172.101 for Special Provisions, Packaging, and QTY Limitations.

Paint, 3, UN 1263, PG II, ERG GUIDE 128

**IMDG Information**

Paint, 3, UN 1263, PG II, ERG GUIDE 128

Hazard Class: 3

Marine Pollutant: No data available.

**IATA Information**

Hazard Class: 3

Paint, 3, UN 1263, PG II, ERG GUIDE 128

---

**SECTION 15) REGULATORY INFORMATION**

---
